

Arya Venkat

Boston, MA | venkat.ar@northeastern.edu | +1 (510) 640-7540 | www.linkedin.com/in/arya-venkat-81526b245

EDUCATION

Northeastern University, Khoury College – GPA: 3.5/4.0

Boston, Massachusetts

Bachelor of Science in Computer Science and Business with a concentration in Fintech

April 2028

University College Dublin, School of Engineering – GPA: 3.8/4.0

Dublin, Ireland

Study abroad program via Northeastern University

September 2024 – December 2024

Relevant Coursework: Business Statistics, Computer Systems, Data Structures and Algorithms, Financial Management, Introduction to Databases, Object-Oriented Analysis and Design

Relevant Skills: Accounting, Data Science, Economics Analysis, Git, HTML, Java, Machine Learning, Python, SQL

TECHNICAL EXPERIENCE

UT Dallas, StaRLing Lab

Dallas, Texas

Research Intern

June 2023 – July 2023

- Co-authored ML research paper analyzing 421 Premier League transfers using 20+ player statistics to predict market transfer values
- Implemented and evaluated multiple regression, neural network, and ensemble models, including Random Forest, Gradient Boosting, and XGBoost, using cross-validation and hyperparameter tuning to compare predictive performance on soccer transfer data.
- Built a data preprocessing pipeline: web-scraped player data, removed outliers, encoded categorical variables, and normalized features using MinMaxScaler
- Conducted k-fold cross-validation with grid search hyperparameter tuning and presented findings to the research team

Cisco

San Jose, California

Engineering Shadow

July 2022

- Shadowed a software engineer, engaging in technical discussions about product development
- Built Smart Calendar web application in a 3-day hackathon, integrating Google Calendar API with voice-controlled scheduling and mental health chatbot features
- Engineered an NLP parser in Python to process natural language time expressions (e.g., "next Tuesday at 3 pm"), achieving 90%+ parsing accuracy across 50+ test cases https://github.com/avenkat28/NLP_Smart_Assistant
- Integrated Python backend with ReactJS frontend using REST API, presenting a technical demo to a panel of industry judges

PROJECTS

MealBuddy - Database Design Final Project

Flask, Streamlit, MySQL | <https://github.com/avenkat28/Meal-Buddy-CS-3200.git>

- Built a full-stack meal planning application for CS 3200 capstone using Flask REST API and Streamlit, serving multiple user personas
- Designed and implemented a normalized database with 12+ entities and complex SQL joins supporting recipe recommendations and nutrition tracking

ProClubsHQ - EA Sports FC 26 Pro Clubs Stats Tracker

Next.js, TypeScript, React, PostgreSQL, Prisma, Tailwind CSS | <https://github.com/avenkat28/Pro-Clubs-Stats-Tracker>

- Built a responsive EA Sports FC 26 Pro Clubs analytics app with live club and player search, leaderboards, comparison tools, and profile-level performance analytics
- Developed dynamic club and player pages to display records, squad stats, recent form, role-aware stat summaries, and match history in a user-friendly interface
- Designed a PostgreSQL database with Prisma to store club, player, match, and leaderboard data for search, comparison, and analytics features

AFFILIATIONS & INTERESTS

Other Affiliations: Alpha Kappa Sigma Fraternity, IM Soccer, NU.in Study Abroad Program, Sports Business Club

Interests: Basketball, Carnatic Music, Cross Country Running, Drums, Poker, San Francisco 49ers, Sports Data Analytics

Languages: English, Spanish (seal of biliteracy), Tamil (conversational)
